ABOUT

Abi Muir is a Cairns-based alt-pop artist creating emotionally charged alt-pop that balances intimate acoustic storytelling with bold, cinematic production. Her music explores the journey of an empath through love, heartbreak, anxiety, resilience and self-empowerment; transforming emotional overload into connection, catharsis and strength.

SOUND

Whilst frequently compared vocally to Ariana Grande for her agility and vocal intensity, Abi’s songwriting carries the introspective honesty of Gretta Ray, the polished indie-pop warmth of Kita Alexander, the mainstream appeal of Mallrat, yet her sound is authentic, and unmistakably her own.

PRESS

With performances that have Waxx Lyrical asking “Why Abi isn't leading the Aussie pop zeitgeist with tracks like this is beyond belief” and dubbed by Cage Riot as “one of the most thrilling and magnetic young voices in pop,” Abi creates music that feels both deeply personal and universally relatable and is fast becoming one of Australia’s most exciting new pop voices.
